

## Vermont Emergency Medical Responder Program

**Host: Arlington Rescue Squad Inc.**

The purpose of the program is a bridge to take the NREMT. This program will prepare an individual to be a driver for the ambulance and be a member of a legal crew.

Over a course of three days, Friday – Sunday, you will be learning CPR, assessments, basic vital signs, oxygen administration and oxygen, preparation, basic 101 splinting, wound care, medication administration, airway management, ambulance overview, and ambulance driving.

You must show competency in all subjects to pass the program. The field training officer must sign and approve skill sets and knowledge. You will not have to take a NREMT written test or simulation.

In order to maintain your skill sets and membership status, you are required to attend Arlington Rescue Squad in-house trainings.

If you do not show competency during the program, the field training officer will work with you. You must show understanding of knowledge, procedure and team dynamics.

Please complete the online membership application at [www.arsvt.org](http://www.arsvt.org) you are subject to a background check, and driver license check.

**IMPORTANT: You may not provide care alone. Only with a certified EMT or higher.**

**You may first respond; however, you may only be allowed to do the following *alone*:**

- Provide lifesaving CPR and use of AED
- Provide lifesaving bleeding control (Bandages, pressure dressing and apply a tourniquet)
